

**OUR SET BC IPAD REPORT
BY
GRADE 2/3
SEAVIEW COMMUNITY SCHOOL**

Chapter 1 Raz-Kids

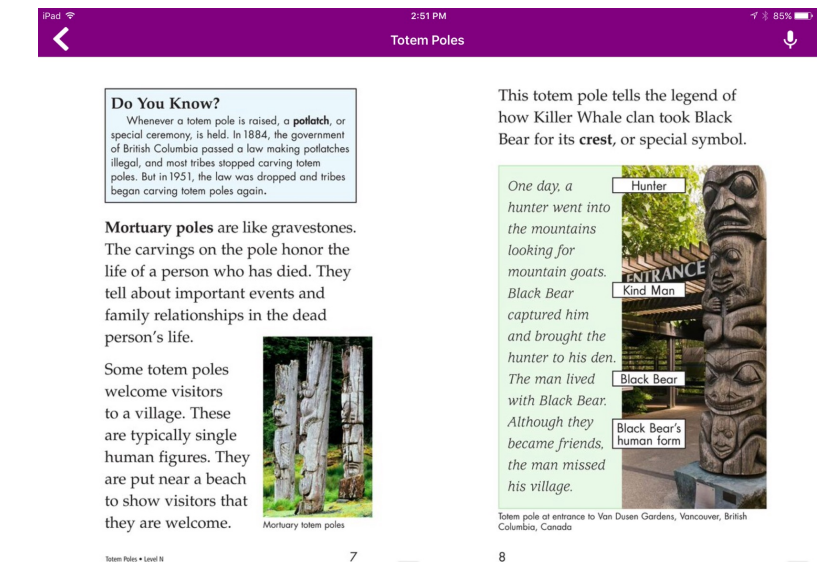

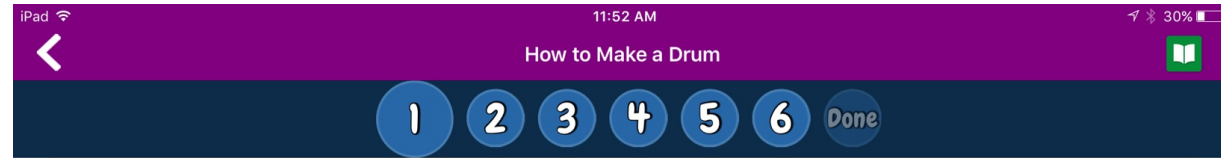

I like razkids because there are different levels, you work independently, it's reading and math at the same time and I like both of those subjects. 😊 The levels on Raz-Kids are about reading to your self at your own level. Some of the books are interesting. I like the non-fiction books about animals. K3

I love raz kids because it's fun. It helps me read better and I can read along. By M4

I learned about history, sharks and different countries by using raz kids on the iPad. I learned how to read on my own and I can remember what I read. I hope I get to use raz kids on the iPad again next year so that I can get to the Next reading level. By S19.

I like razkids because there are lot of choices of books. We can read on our own and sometimes the iPad reads to me. I find it easier to follow a story when the iPad reads to me. I understand a story more when I can listen to it. By A1.

What is the first step in making the drum in this book?

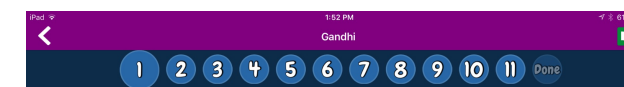

- A Stretch the balloons over the tube.
- B Take the top and bottom off the box.
- C Decorate the drum.

I love Raz-Kids because it it's so fun and it helps me because I don't know how to spell and the multiple choices help me. K

Raz-kids is fun and you learn a lot about what the book is about. Some of the books are real and some are fake. I like the information books better because they tell you stuff that you didn't even learn and are going to learn. Some of the quizzes are hard and some are easy. s19

What is the most likely reason the author wrote *Gandhi*?

- A to entertain the reader with stories of Gandhi's childhood
- B to inform the reader about the history in India
- C to persuade the reader to visit India
- D to inform the reader about the life and influence of Gandhi

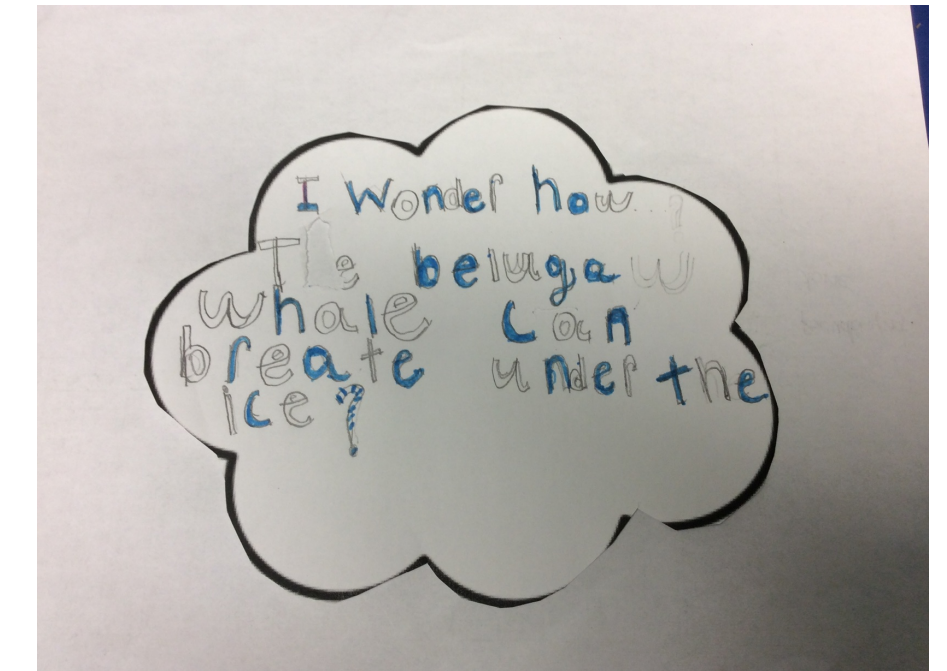

I like using Raz-Kids because it helps me with my reading. I can read books I have never read before. I like the iPads because the computer is more complicated. When I have the iPad I can carry it around and read in a comfortable spot. L16

CHAPTER 2 - USING THE IPADS FOR INQUIRY

The image shows a sequence of iPad screens. The top screen displays the KidRex search engine with 'Belug' entered in the search bar. The middle screen shows a Wikipedia article titled 'Beluga whale - Wikipedia' with the text: 'The **beluga whale** or **white whale** (*Delphinapterus leucas*) is a sub-Arctic **cetacean**. It is one of two members of the family along with the **narwhal**, and the only member of the **genus** *Delphinapterus*. This **marine mammal** is commonly referred to as the **beluga**, **melonhead**, or **sea canary** due to its high-pitched twitter. It is adapted to life in the Arctic, so has anatomical and physiological characteristics that differentiate it from other cetaceans. Amongst these are its all-white colour and the absence of a **dorsal fin**. It possesses a distinctive protuberance at the front of its head which houses an **echolocation** organ called the **melon**, which in this species is large and deformable. The beluga's body size is between that of a dolphin's and a true whale's, with males growing up to 5.5 m (18 ft) long and weighing up to 1,600 kg (3,530 lb). This whale has a stocky body. A large percentage of its weight is blubber, as is true of many cetaceans. Its sense of hearing is highly developed and its **echolocation** allows it to move about and find'. The bottom screen shows a QR code for 'GRAFTER'.

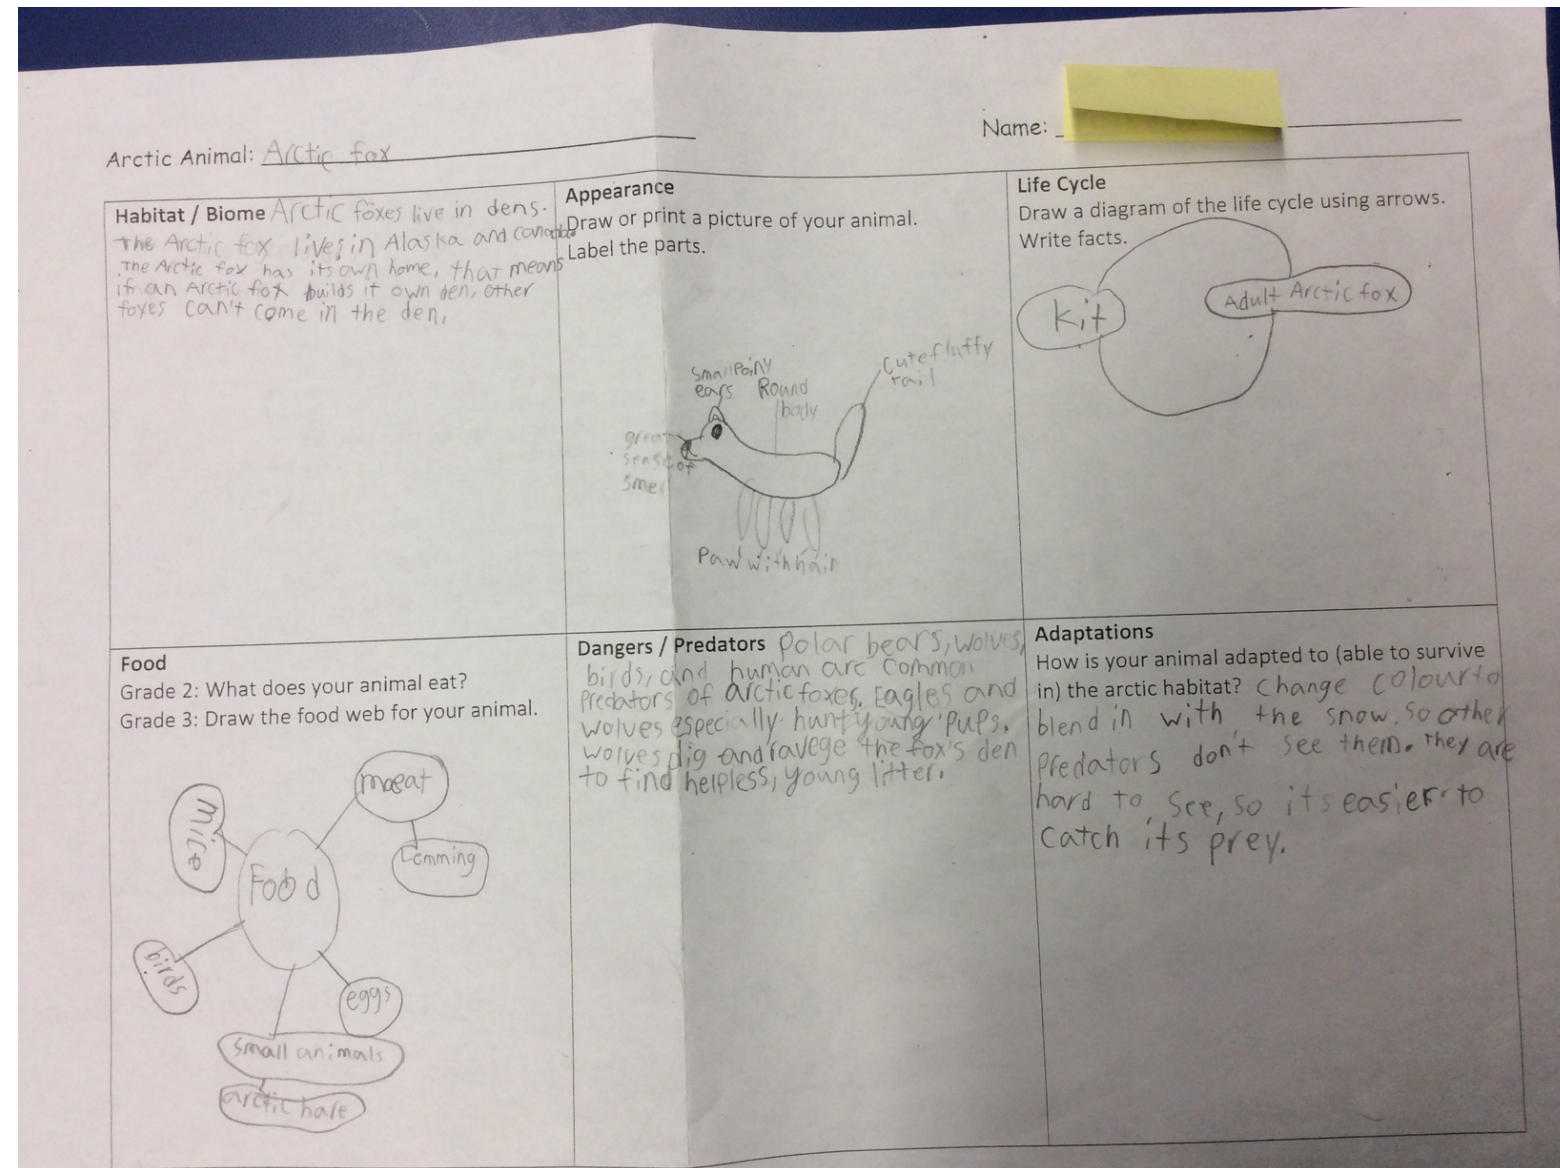

The iPads helped me learn about how the animals survived and how they get away from their predators. You can easily learn more facts using Kidrex. This is my wonder that I researched. M5

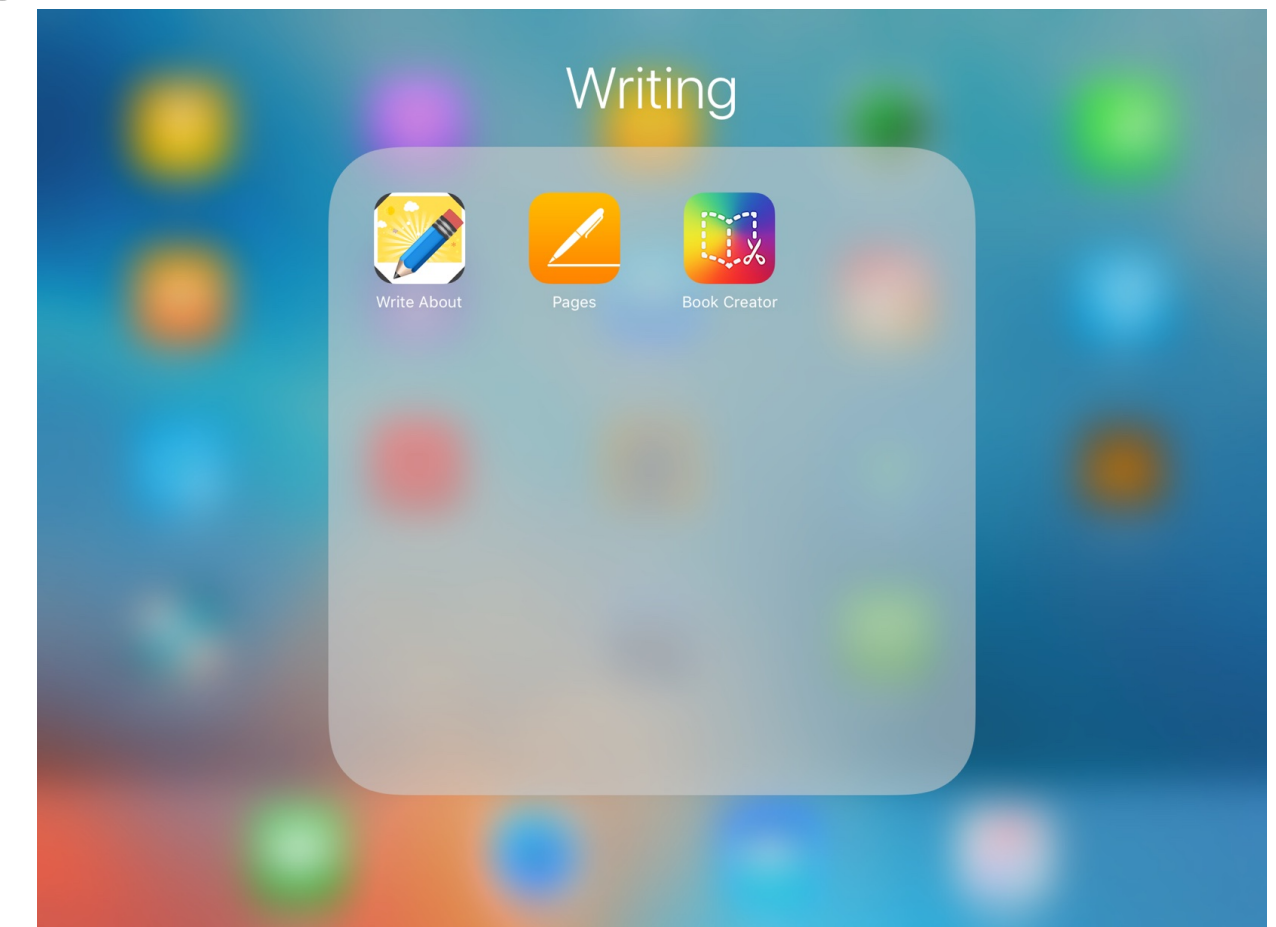

QR codes are scanning codes. They help you go to a website like kid Rex. we do things as searching for arctic fox , harp seals and that's what I can think of right now. theirs a lot of things you can search. You can put in a lot of stuff inside kid Rex and it's basically google for kids. it has videos about some animals you search. C3

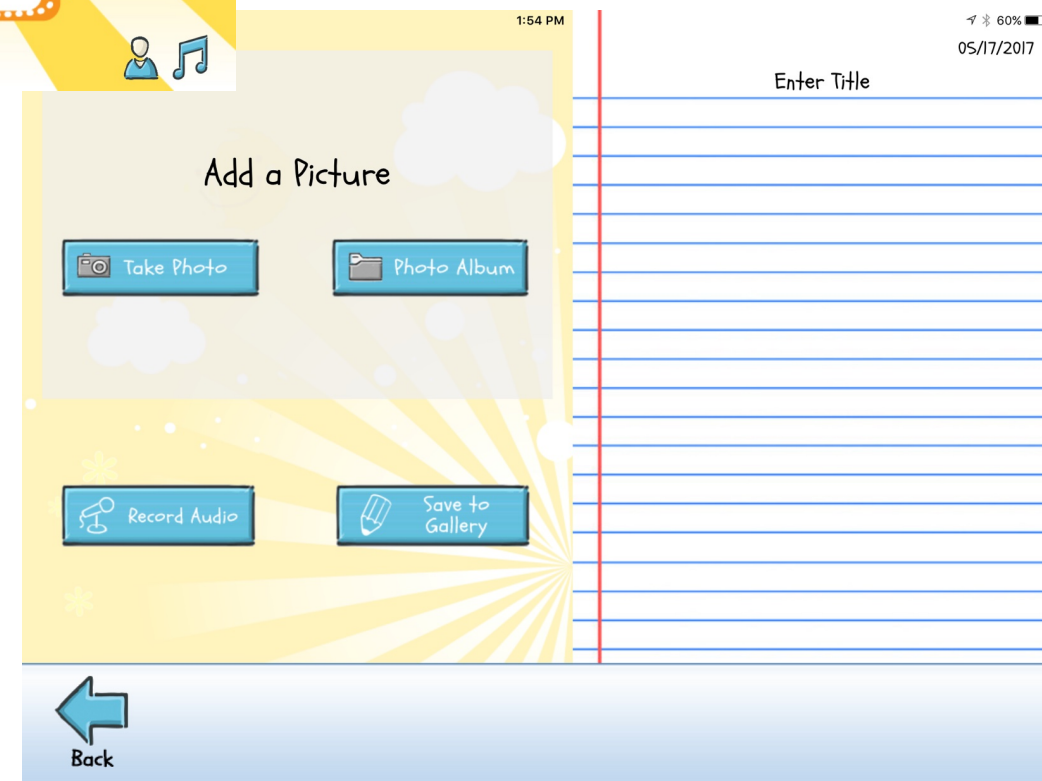

My experience of using the iPad for my arctic inquiry project

I used kidrex to research about arctic animals. I researched about the arctic fox 🦊. I asked lots of questions about the arctic fox 🦊. One question I asked was how do arctic foxes 🦊 change colour? I learned that arctic foxes 🦊 get food by following a polar bears silently then after it leaves. | 11

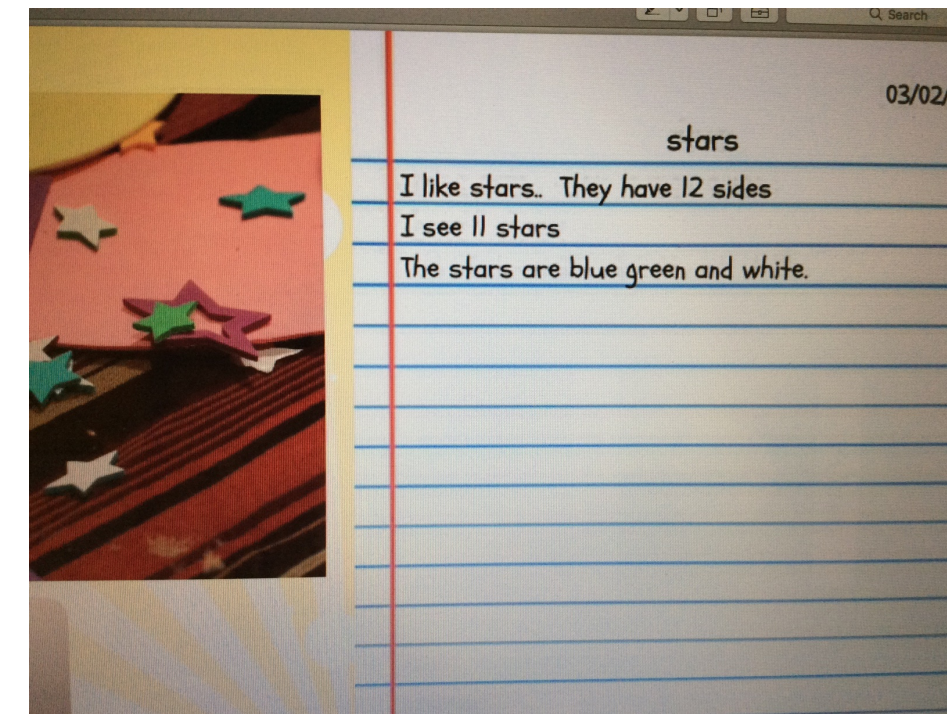

Chapter 3 - Writing With the iPads

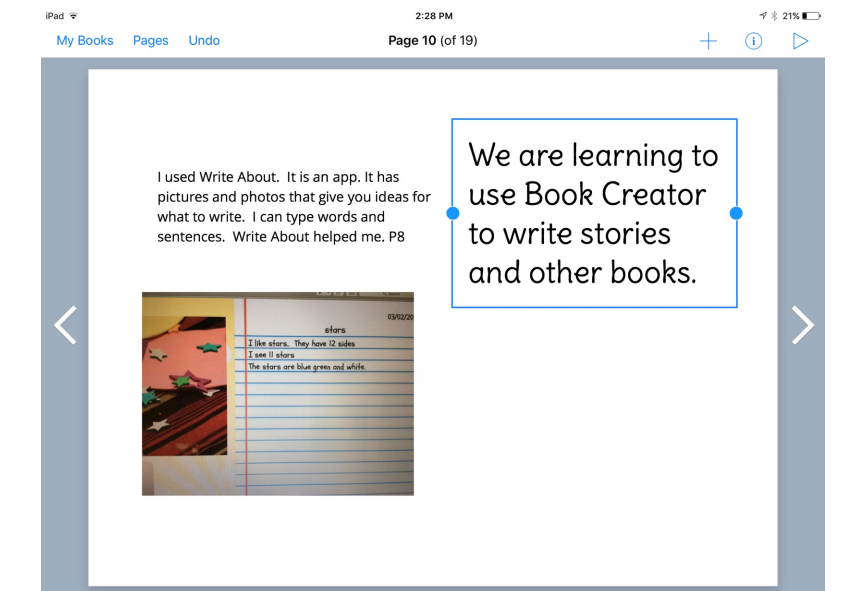

I used Write About. It is an app. It has pictures and photos that give you ideas for what to write. I can type words and sentences. Write About helped me. P8

We are learning to use Book Creator to write stories and other books.

Chapter 4 Surprises and Bonuses

Next year I want to do scratch if I am Mrs. Reznik's class because we can make things. G9

During Learning Centres, we play Sumdog. Sumdog is a math game. It is good for helping you to practice. Sumdog is a game that you can get points by competing against your class, the school, and the world 🌍 L15.
